

KOCO PACKAGING MACHINERY CO.,LTD

Automatic milk packaging machine

Technical Parameters:

MODEL	CBF-2000
POWER	1.5KW
VOLTAGE	220V/50Hz
FILLING CAPACITY	50ML-500ML
PRODUCE CAPACITY	2000BPH
FILM DEVELOPED WIDTH	320MM
WEIGHT	500KGS
SIZE	1250×950×2450MM

The warranty period of the machine is 1 year, and our company can provide the supporting parts of the machine for a long time.

Machine introduction:

CBF-2000 is the latest model elaborately developed based on the advanced technology of automatic liquid packaging machine at home and abroad. It can be widely used for filling all kinds of drinks, juice milk,

peanut milk, soy sauce, vinegar, edible oil and other liquid materials. The machine adopts three side sealing, the bag shape is beautiful and elegant, and the sealing is firm. It is the preferred equipment for packing liquid materials.

The stepper motor is used to control the belt, the belt is stable, and the cursor positioning accuracy is high; Using PLC control technology, it can be flexible and convenient to adjust the length of the bag (man-machine interface digital adjustment belt length), it is also very convenient for the cursor, greatly reducing the waste bag rate; The control circuit is greatly simplified, the fault points are reduced, the performance of the whole machine is more stable, and it is easy to use and maintain; All parts and shells in contact with materials are made of stainless steel and fully enclosed to ensure that the products meet the national health requirements; High level automatic filling, automatic carbon date printing, automatic cursor positioning, ensure that the product has a complete printing pattern.

Product packaging effect:
